Starting in the 2nd year of the contract, the Owner may withdraw up to 10% of the contract value as of the prior anniversary, or take Required Minimum Distributions (for qualified contracts), whichever is greater, without incurring fees. To activate this, however, there can be no withdrawals other than RMDs during the first contract year.

RMDs: any RMD taken in Year 1 will be assessed a surrender penalty.

INTEREST ONLY WITHDRAWALS

Interest-only withdrawals are available only after the first year. The client may choose: 1) the first check to include all Year 1 interest; or 2) elect only to take interest earned going forward and keep Year 1 interest accruing in the account.

REQUIRED MINIMUM DISTRIBUTIONS

(RMDs) For Owners who are taking Required Minimum Distributions from IRAs, the annual RMD for the current year should be taken prior to qualified funds transfer to American Life. Any RMD in Year 1 is subject to surrender charge, MVA, and commission chargeback.

MARKET VALUE ADJUSTMENT (MVA)

Where applicable, MVA is applied on any withdrawals / full surrender in excess of the penalty free or RMD amount during the surrender period. In general, if interest rates (as measured by the index) have increased or have decreased by less than 0.25% (0% in states with no offset), an additional amount is deducted from the withdrawal. Conversely, if rates have fallen by 0.25% or more, an amount will be added to the withdrawal. See the contract for the MVA calculation.

DEATH BENEFIT

With the included Enhanced Death Benefit Rider, the death benefit is full Contract Value paid to the Beneficiary(ies) upon the Owner's death. Spousal Beneficiaries may elect to continue the contract.

Death benefit paid on "first to die" for Joint Owned contracts. Surviving spouse has option to continue policy or have death benefit paid.
